DETAILED ACTION

REASONS FOR ALLOWANCE

The following is a statement of reasons for allowance: The claims are free of the prior art. The prior art does not disclose or suggest a method or a delivery system that delivers an active agent in a polymer/active matrix dosage form that is administered to a patient in fed mode, upon imbibition of water swells and is retained in the gastric area for 4 to 9 hours, maintains its size for 4 to 9 hours before it is diminished by erosion and wherein at least 75 % of the active agent is released by erosion of the polymer matrix within the 4 to 9 hours. The closest prior art, Penners et al. (CA 2,143,500) teach an administration form having a prolonged gastric residence time. Penners et al. teach that the administration form has marked swelling properties. Penners et al., however, also teach that the embodiments are resistant to erosion and disclose the active agent is released by dissolution, not erosion, and the polymer layer showed no signs of erosion even after 24 hours.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Election/Restrictions

Claims 1, 5, 8-14, 18-20, and 22-28 are directed to an allowable method of use. Claims 15-17 and 29 are directed to additional species which depend from or otherwise

require all the limitations of an allowable generic claim , previously withdrawn from consideration as a result of a an election of species, claims 15-17 and 29 are hereby rejoined and fully examined for patentability under 37 CFR 1.141.

Because all claims previously withdrawn from consideration under 37 CFR 1.141 have been rejoined, **the election of species as set forth in the Office action mailed on October 5, 2007 is hereby withdrawn.** In view of the withdrawal of the election of species requirement as to the rejoined species, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the election of species requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Conclusion

Claims 1, 5, 8-20, and 22-29 are allowable.
